

Nixon-Egli Equipment Co., LeeBoy and Allied Enterprises, Inc.,

Left: Allied Enterprises recently used their new LeeBoy 8510B to pave the parking lots at Bishop Amat Memorial High School in La Puente.

Allied Enterprises, Inc. offers more than 30 years experience in asphalt paving, striping, surface treatments, and concrete flatwork. Headquartered in City of Industry, the company also specializes in demolition, excavation and grading services throughout Southern California.

Allied Enterprises, Inc. recently purchased their first LeeBoy 8510B paving machine from Nixon-Egli Equipment Co. David Mendoza is the President of Allied Enterprises, Inc. and he is hands on when it comes to owning and maintaining only the best equipment and technology. "We are doing a lot of commercial

and school district work these days. We were looking for a paver that could help us increase our productivity and the LeeBoy fit in with our scope of work perfectly," says Mendoza. "We believe that it is the best available mid-class paver in its class and it has already been a game changer for us, with increased productivity and efficiency."

David Mendoza has dealt with Nixon-Egli Equipment Co. in the past, with the purchase of several rollers. "We knew Nixon-Egli was the place to go because of our positive experience in the past," says Mendoza. "I have known our sales rep, Allen Hahn for many years and he has always been there for us with the very latest news and updates in equipment technology. Nixon-Egli has been around for a long time and they are a name we know we can trust. We will continue to look to Nixon-Egli Equipment for our future equipment needs."
