

NIXON-EGLI EQUIPMENT CO., LINK-BELT & BOB'S CRANE SERVICE

Left: Bob Turner (left), Owner and Rick Duarte, Operator, Bob's Crane Service.

Right: One of (2) Link-Belt RTC 8090 Series II cranes purchased especially for the Interstate 805/ Palomar Street bridge replacement and addition of on and off ramps as well as new retaining wall construction in Chula Vista for Granite Construction.

Bob Turner started out as an owner/operator back in 1983. Today, over 30 years later Bob's Crane Service has grown into a fleet of over (20) cranes, ranging from 5-tons to 275-tons with boom lengths from 40 foot to 343 feet. The company works for the biggest names in the business, providing cranes and operators for high profile projects including a long list of bridges and freeways. Bob is the first to admit that the people working for him have made the company the success it is today. He also considers Nixon-Egli Equipment a part of his team and long term success. Bob's Crane Service owns (7) Link-Belt cranes and is looking to purchase another. His most recent purchases include (2) Link-Belt RTC 8090 Series II cranes. They were purchased specifically for the Palomar Street bridge replacement project on Interstate 805. Bob's Crane Service is providing the operated crane rental service for the bridge replacement, which includes the addition of on and off ramps, and for construction of retaining walls in Chula Vista by Granite Construction.

"The (2) Link-Belt RTC 8090 Series II cranes were ideal for this project due to their strength and durability and the fact that they can fit in tight quarters like the ones on this job," said Bob Turner. "We are using the two identical cranes on this project on each side of the freeway to better meet our client's needs. Another benefit of the Link-Belt RTC 8090 Series II cranes is that they are the largest rough terrain cranes that can be operated by a single operator. This also keeps costs down and certainly helps in the bidding process."

"Nixon-Egli has always been there for us with nothing but excellent service over the years. Their sales representative Tom Trevithick has always provided us with great sales support and we know we can count on him, states Turner. We are celebrating 31 years in 2014 and Nixon-Egli has been a big part of our success."

Bob's Crane Service serves all of San Diego, Imperial and Riverside Counties with the industry's best operators and cranes from 5-ton to 275-ton. For more information on Bob's Crane Service, please visit them online at www.bobscrane.com or call (619) 443-5887.
