

Nixon-Egli Equipment Co., Wirtgen and Guzman Grading & Paving Corp.

(Above & Right) Guzman Grading & Paving Corp. uses their brand new Wirtgen 120i FCS Wirtgen milling machine on a recent project.

Guzman Grading & Paving Corp. was first established in 2005 by Jesse Guzman Sr. and his two sons, Jesse Jr. and Basilio Guzman as a full-service grading and paving contractor. The company works throughout the state of California, specializing in public works projects with an emphasis on utility trench paving projects. They own and operate a variety of asphalt paving machines, but have never owned a milling machine until just recently. "We decided that it was time to step-up our game and purchase our own milling machine, as opposed to renting," says Guzman. "With all of the trench paving work we are taking on, it just makes more sense economically to own."

Guzman Grading & Paving Corp. has known Alan Hahn from Nixon-Egli Equipment Co. for many years. "We purchased a Wirtgen 120i FCS milling Machine from Alan Hahn of Nixon-Egli. Alan is very tenacious and has been calling on us since we first started out in 2007," says Guzman. "Alan presented us with the idea of purchasing a Wirtgen 120i FCS Wirtgen milling machine and he communicated well and worked hard to get our business."

After thorough investigation of the Wirtgen and other machines, Jesse Guzman decided that the Wirtgen was the perfect machine for them. "We love the Wirtgen machines efficiency, ease of operation, state-of-the-art controls and we were truly amazed at just how quiet the machine is," says Guzman. "We have already received training and are continuing to be trained by Nixon-Egli. Everything from sales and service to parts availability is readily available and consistent at Nixon-Egli. I can see why so many companies do business with them."

Guzman Grading & Paving Corp. is headquartered out of Fontana, with anywhere from 9 to 15 employees working for them from season to season. For more information on Guzman Grading & Paving Corp., call (909) 428-5960 or (714) 345-6154.
