

# NIXON-EGLI EQUIPMENT CO., WIRTGEN AND LINDY'S COLD PLANING

*Left & Below:  
One of Lindy's new Wirtgen  
210 Cold Milling Machines  
purchased from Nixon-Egli  
Equipment Co.*

Cindy Trump Inc. "dba" Lindy's Cold Planing is a General Engineering Contractor that has specialized in asphalt grinding since 1987. They offer everything from ½ lane milling and mid-size grinders to mini grinding machines and perform cuts from 4 feet to 7 foot 3 inches in width. From highways to parking lots, Lindy's does it all. They are signatory to the Operating Engineers, Certified as UDBE, DBE, WBE, SBE and PUC.

Lindy's primarily works throughout California, as well as Nevada and they are currently in the process of getting licensed in Arizona. Lindy's Cold Planing has owned 10 Wirtgen milling machines over the years and they have six in their fleet today. Cindy Trump is the owner and President of Lindy's Cold Planing and she recently purchased two new Wirtgen 210 (6'7" cut) cold milling machines from Nixon-Egli Equipment Co. Her son, Chris Trump is in charge of all field operations and he comments, "The Wirtgen machines are the most operator friendly units on the market. They are easier to run and offer the best visibility. This is due to the superior chassis design that allows our operators to actually see their work below as they are grinding."

The Trump Family has been doing business with Nixon-Egli Equipment Co. ever since they acquired the Wirtgen line back in 1988. "The new engine design saves us in fuel costs and the vacuum system on the conveyor keeps the dust down to a minimum. This is of course not only a benefit to our environment, but also to our operators as well and we appreciate that," continues Chris. "We also like the fact that the new Wirtgen 210 is equipped with new automatics on the grade control and the parallel to surface feature. We had to previously do this manually and we are now able to save time, money and increase production with the addition of the automatics."

Chris Trump concludes, "We appreciate the support we have received from Nixon-Egli over the years and truly value them as a business partner. Steve Kekich is our Nixon-Egli representative and a friend. He is very knowledgeable about the Wirtgen product line and he is always available to us. We have enjoyed our long partnership with Nixon-Egli and we plan to continue purchasing Wirtgen milling machines from them in the future."

## NIXON-EGLI EQUIPMENT CO.

California's Largest General Line Construction and Municipal Equipment Dealer.
