Morgan-Bonanno Development, Inc. continues to build upon their 30-year reputation for excellence in all phases of asphalt paving and maintenance throughout the greater Bay Area. As a third generation family business, they specialize in new pave remove and replace, asphalt overlay, decorative asphalt surfaces, ADA compliance, restoration and repair of streets, driveways and parking lots with full service offerings including: slurry seal, crack filling, patching and sealcoating services. The company has built a niche market in estate properties with a focus on commercial, industrial and municipality work.

Mike Bonanno, CEO of Morgan-Bonanno Development and his team of long-term employees believe that the secret to maintaining close working relationships with clients is through exemplary customer service. This includes keeping the customer first through value engineering and design, as well as utilizing the most technologically advanced procedures and equipment. So when the time came to add another machine to their paving fleet, they turned to the experts at Nixon-Egli Equipment Co. "We have relied on Nixon-Egli ever since we started out in business more than 30 years ago. Our newest purchase was a LeeBoy 8515B asphalt paver, which we bought for its high production ability and general reliability," says Bonanno. "We also liked the new electrically heated, vibrating Legend HD screed."

The Legend HD screed provides a seamless mat at variable widths from 8' to 15' with a large 7.5 ton hopper and paving speeds from 0 to 160 feet per minute. "Nixon-Egli has always been there for us and when our LeeBoy had to go into the shop when we first got it for adjustments, Nixon-Egli provided us with a loaner, resulting in zero down time for us and our customers. Now that's customer service."

When you are looking for quality paving, call Morgan-Bonanno at (925) 820-2558. For the very best in construction equipment and product support, call the professionals at Nixon-Egli Equipment Company.
