

Nixon-Egli Equipment Co., Link-Belt and T&T Truck & Crane Service

T&T Truck & Crane Service's brand new Link-Belt HC-278H II purchased from Nixon-Egli Equipment Co.

T&T Truck & Crane Service has been providing a broad spectrum of services to clients in the construction, oil and gas and transportation industries since 1969. With over 100 employees and four locations in Ventura, Bakersfield, Port Hueneme and Goleta, they provide their services 24-hours a day, 365 days a year. T&T Truck & Crane Service offers a fleet of well-maintained modern equipment and their most recent purchase is a Link-Belt HC-278H II HYLAB Series Lattice Boom Truck Crane from Nixon-Egli Equipment Co.

Shawn Paul, President of Operations of T&T Truck & Crane Service comments, "Our new Link-Belt HC-278H II has outstanding features and tremendous 300-ton lift capacity performance. Some of features that set the Link-Belt HC-278H II apart from competitors are the bullet-proof hydraulics and a strong power plant, not to mention the comfort and control at your fingertips and smooth highway travel."

The Link-Belt HC-278H II offers an increased strength chart with two-staged boom and 300-ton capacity at a 10 ft. radius. "We were in the market for a truck crane with heavy lifting capacities, especially for structural steel erecting and concrete panel tilt-ups. There weren't any available in our market area so we wanted to be the first to fill that need. We went straight to Nixon-Egli Equipment Company the Link-Belt distributor because we have purchased several other cranes from them and we knew from experience that they provide the best service around," added Paul. "We really appreciate our business relationship with Nixon-Egli and their crane specialist Dennis Schulgen. They have been great to work with and are always on top of their game. If we have any questions, Dennis is always there for us right away with the answer. Whether its sales, parts or service the whole team at Nixon-Egli is always ready to provide us with top-notch service. We are very pleased with our new Link-Belt (HC-278H II lattice truck) crane. It's a huge addition and tremendous asset to our fleet and has expanded our capabilities. We want to thank Nixon-Egli for providing us with the best equipment, so we, in turn, can provide the best crane rental service to the industry."
