LeeBoy

United Pavement Maintenance is a family owned and operated company that specializes in asphalt paving, concrete and striping projects. Established in 2008, the company is headquartered in Hughson, CA and performs primarily commercial and industrial work in Merced, Stanislaus, San Joaquin, Sacramento and Calaveras counties. They have earned a reputation for efficient, quality work backed by the areas most professional operators and laborers and the industry's finest equipment and technology.

Rudy Ruvalcava is the owner and president of United Pavement Maintenance and he recently added another paver to his fleet. "I have purchased used pavers in the past and they were always LeeBoy," says Ruvalcava. "I recently bought our first new LeeBoy paver, a 8515C. LeeBoy is the best machine for our particular scope of work, especially parking lots. We are able to pave close to curbs and other buildings and structures and this means less handwork."

Ruvalcava also points out that his operators prefer the LeeBoy paver. "Our new LeeBoy 8515C is an extremely versatile, durable and reliable paving machine. The Legend electronic screed is the best in the business and I can tell you that it lays down the best mat as well."

Denny Johnson is the Nixon-Egli representative serving United Pavement Maintenance. "Denny is awesome and he is there for us 24/7. Nixon-Egli has treated us great at all points of the sale and after and they are definitely getting my repeat business."
